PROPOSED PROJECT BOUNDARIES

The proposed boundaries include that area generally bound by the southerly boundary of the Westchester-Playa del Rey Community Plan to the north, South La Cienega Boulevard to the east, West Imperial Highway to the south, and South Vista del Mar to the west.

PROPOSED PROJECT

There are six major components of the proposed *LAX Master Plan Program* and they are the following:

Intermodal Transportation Center (ITC). Similar to the GTC, the ITC will provide a convenient primary airport access center with a connection to the MTA Green Line.

Rental Car Facility (RAC). The airport’s rental car facilities will be consolidated in one location, referred to as the consolidated Rental Car Facility (RAC).

Automated People Mover (APM). The Automated People Mover system will connect the GTC, the ITC, the RAC and CTA.

Four Runways and Taxiway Improvement Configuration. Parallel taxiways between both the north and south runway systems will be provided to reduce the potential for runway incursions.

Central Terminal Area (CTA). New terminals would be developed within the CTA located in the area currently occupied by the CTA parking structures and in addition a new West Satellite Concourse.

Ground Transportation Center (GTC). The new GTC will provide a convenient primary airport access center for private and most commercial vehicles and will be linked to airport facilities and terminals via the APM system.

LAX MASTER PLAN PROGRAM DOCUMENTS

The LAX Master Plan Program documents include the Final EIR (including the Addendum and Mitigation Monitoring and Reporting Program), California Environmental Quality Act (CEQA) Findings and Statement of Overriding Considerations, the LAX Master Plan (Preferred Alternative D), General Plan amendments, the LAX Plan, the LAX Specific Plan, Zone Changes, Code Amendments, Tentative Tract Maps and the draft Relocation Plan.

ADDENDUM TO THE FINAL EIR

The Addendum to the Final EIR will be available by September 22, 2004. The Addendum to the Final EIR consists of an introduction (Chapter 1) as well as the following technical components: Additional Discussion of Environmental Consequences relative to the Relocation Plan/Property Acquisition, Environmental Justice, and Air Quality. It also includes refinements to the LAX Plan and the LAX Specific Plan for Alternative D, a Feasibility Analysis of the three “Alternative E” proposals, and refinements to the Environmental Action Plan. Two Appendices cover additional comments and responses and an Errata to the Final EIR.

REVIEW OF DOCUMENTS

The Final EIR, including the Addendum to the Final EIR, the LAX Master Plan, Draft Relocation Plan, and revised copies of the LAX Plan, Specific Plan, Mitigation Monitoring and Reporting Program are available at the locations listed below. Review days and times vary by location. The documents can also be reviewed at www.laxmasterplan.org.
